SUMMARY

Motivated third-year engineering student with strong foundations in Web Development, Java, and Backend Technologies. Experienced in building real-world projects using HTML, CSS, JavaScript, Node.js, Express, MongoDB, and React. Focused on creating scalable, user-centric applications. Passionate about learning industry-level tools and building impactful software products.

EDUCATION

Sinhgad Institute of Technology, Lonavala

2024 – Present

Bachelor of Engineering (B.E.) – Computer Engineering (Third Year, DSE)

SGPA: 8.18 (Sem III), 7.27 (Sem IV)

Karmayogi Institute of Technology, Shelave – Pandharpur

2021 – 2024

Diploma in Computer Science

Percentage: 86.80%

TECHNICAL SKILLS

🔧 Frontend:	HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS, React
🖥 Backend:	Node.js, Express.js
🗄 Databases:	MongoDB, SQL
💻 Languages:	JavaScript, Java
⚙ Concepts:	REST APIs, MVC Architecture, Middleware, OOP
🔧 Tools:	Git, GitHub, Postman, VS Code
📖 Basics:	Computer Networks, DBMS, OS

PROJECTS

Community Forum – Discussion Web Platform

💻 Tech: HTML, CSS, JavaScript, Node.js, Express, MongoDB

🔗 GitHub: [community-forum](#)

- Designed and developed a community discussion platform for creating and managing posts
- Implemented user roles, post CRUD operations, and backend APIs
- Structured the project using MVC architecture for scalability and maintainability

Wanderlust – Airbnb-Style Property Listing Web Application

💻 Tech: HTML, CSS, JavaScript, Node.js, Express, MongoDB

🔗 GitHub: [wanderlust](#)

- Developed a full-stack web application for listing hotels, homestays, and rental properties
- Implemented property listing management with images, pricing, and location details
- Built user authentication and secure REST APIs
- Used MVC architecture with middleware for validation and error handling

ADDITIONAL INFORMATION

🗣 Languages: English, Hindi, Marathi

👥 Activities: Hackathons, Coding Events
